REVENGER STANDS

Designed primarily for use in lighting kits, these stands are compact and light weight. They are ideal for assembling custom lighting kits or as a replacement. Matthews Revenger Stands employ a "brake shoe" system for locking off the riser tubes as opposed to "pinch castings", therefore permitting the use of heavier fixtures.

REVENGER STAND

This Revenger stand features a wider footprint for increased stability, beefed up leg braces, and a very low price. Ideal for students, studio or location.

387402 — Black
 Revenger Stand

 List Price: \$137.00

BACK LIGHT STAND

The Matthews Back Light Stand is configured so that accurate positioning of the back light may be achieved. Used for either background illumination or the back lighting the subject. An extendable column allows for a wide range of heights and includes an interchangeable 5/8" pin that positions the light almost directly on the floor.
